conditions.

**DS1500** miniaturization allows easy integration into OEM equipment and automatic machinery. The high scan rate and sophisticated electronic design effectively addresses difficult reading

Availability of embedded ACB™ (Advanced Code Builder) reconstruction SW algorithm allows consistent decoding of damaged or mis-applied labels (resulting in high tilt angles).

DS1500 installation and configuration is easy and simple thanks to compact size and to the new test operating mode with bar-graph. Test mode is activated by means of a pushbutton on the scanner (external PC not required) and the led bargraph shows the real time read percentage. This feature increases the scanner ease of installation and re-positioning during product changeovers in automated machinery. **DS1500** operates at a speed up to 1200scan/s, extending the application range also to high speed document handling, paper inserting, label rewinding and packaging machines. Additionally, the scanner motor can be switched ON and OFF via SW command. This feature is useful in very low throughput application or when the machine sits idle for long periods. A simple software command allows a prompt restoration of full operation when needed.

Dimensions

1200 scans/

Test mode with bar-graph

44 g Lightweight

## **FEATURES**

- Extremely compact dimensions (40 x 30 x 22mm)
- Up to 1200 scan/s
- ACB™ (Advanced Code Builder) reconstruction
- Ease of use Test mode with bar-graph
- Motor ON/OFF SW control
- Selectable RS232/485 serial link
- IP65 rugged industrial housing

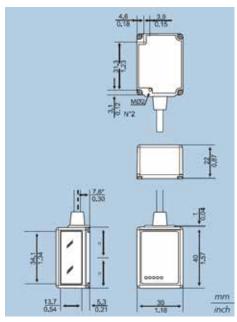

## **APPLICATIONS**

- OEM integration
- Chemical and biomedical analysis machines
- Document handling
- Print & Apply systems
- Packaging machines
- ATL (Automated Tape Library)

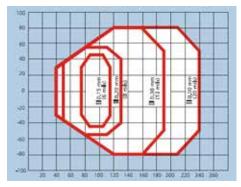

| TECHNICAL DATA                |   |  |
|-------------------------------|---|--|
| ELECTRICAL CHARACTERISTICS    |   |  |
| Power supply                  | 5 VDC   |  |
| Power consumption             | 2 W max.  |  |
| MECHANICAL CHARACTERISTICS    |   |  |
| Dimensions                    | 40 x 30 x 22 mm   |  |
| Weight                        | 44 g without cable  |  |
| Case material                 | Zama (zinc, aluminum, magnesium alloy)  |  |
