Eliminate Setups

TigerStop® quickly positions to your desired length and cuts with in +/- .004 in (.10mm) every time. The part you cut today, will be the same as the part you cut tomorrow.

Keeps Operators in the Zone

When operators are busy setting and rechecking stops, they aren't cutting and they aren't making you money. TigerStop® keeps the operator at the saw and in the money making zone.

Eliminate Rework

With TigerStop®, you can say, "Goodbye" to rework! Your cutoff station can make your newest employee look like a seasoned sawyer.

Fast Payback and Exceptional ROI

Most users find that their new TigerStop® pays for itself in a matter of months.
