

- LSF07 is a high speed model for precise grinding and polishing. LSF 07 is equipped with a 3 mm collet and can be equipped with a 1/8" collet as optional. (Without speed governor)
- LSF18 series – All the models in the 18 series are equipped with a powerful 0.5 kW air motor and speed governor. The angled models (LSV) have a patented solution that overcomes temperature and leakage problems commonly associated with angle head tools. The result is a leak-free and self-cooled angle head. All models are lubrication free except for the high speed model LSF18 S460.
- LSF28 series – Powerful 0.85 kW air motor, with speed governor and scatter damping. Impressive power-to-weight ratio.
- LSF38 – One of the most powerful one hand die grinder on the market, up to 1.35 kW. If you are looking for a tool that can boost your productivity and save you money, the LSF38 is the right tool! The die grinders in the 38 series are lubrication free with scatter damping for maximum operator comfort and safety.

<sup>a</sup> Not lubrication-free. -1 = 6 mm collet

E = Extended version

R = Model is rigid, without scatter damping

Accessories Included

**LSF07**

Air hose  
ErgoNIP 08  
Collet 3 mm (1. se ill.)

**LSF/LSV/18/28**

Spanner  
Collet 6 mm (1. se ill.)  
Air hose, air hose nipple and clamp  
Exhaust hose

**LSF38**

Air hose nipple  
Collet 6 mm (1. se ill.)
